DETAILED ACTION***Election/Restrictions***

Claims 5-12, 23, 19, 20 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 7. It is noted that applicant's election included claims 19 and 20. However, claims 19 and 20 depend from a non-elected claim (claim 5) and therefore, claims 19, 20 have been withdrawn from consideration.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4, 13-18, 21, 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1-4, 13-18, 21, 22 fail to recite sufficient structural elements and interconnection of the elements to positively position and define: 1) how the first and second linear motor gives a driving force in the X (Y) direction to the movable table at the same height as the center of gravity of a movable section (claim 1); 2) the position detectors (the detectors are located with respect to a line and not with respect to a claimed structure) so that an integral structure able to function as claimed is recited.

Art Unit: 3637

Allowable Subject Matter

Claims 1-4, 13-18, 21, 22 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Suzuki et al, Sakino et al, Kasai et al, Oono et al, reference 62-34745 teach structure similar to applicant's.
